

21 September 1973

ENGLISH LANGUAGE SYLLABUS FOR NATIVE SPEAKERS

Memorandum

An English language syllabus for native speakers should be established.

Could the Board of Inspectors appoint a working group to prepare an advance draft?

In the first stage it would probably suffice if the scheme were restricted to the first four years (for the three years already in existence and the one starting in September 1974).

The syllabuses for the other classes could be worked out as the English language section grows.
